Mirage – A Tribute to Fleetwood Mac

Mirage is a talented and entertaining tribute to the original and internationally loved, Fleetwood Mac. Since 2002, Mirage has been bringing the voices, the music, and their admiration of Fleetwood Mac's unforgettable music to stages across the country. As a band of accomplished musicians, they are dedicated performers bringing fans a show reminiscent of the real thing with their overall professional musical skills.

Michelle Tyler fronts the band as the lovely Stevie Nicks. Michelle's uncanny vocal ability has earned her much praise from fans of Stevie and concert critics alike. Mirage has been recognized as one of the "Worlds Greatest Tribute Bands", and Michelle appeared as the iconic Stevie on two seasons of the popular national broadcasts on AXS TV. She has appeared on the Dick Clark production, "Your Big Break", as well as "The Next Big Thing". Michelle captures the style, allure, and magical whimsy of Stevie Nicks with her sultry vocals and authentic wardrobe of lush velvet and lace.

Bruce Lawrence, is a very talented artist who performs the role of Lindsey Buckingham on stage. He skillfully plays guitar and sings the songs that Lindsey admirers know and remember. As an accomplished instrumentalist who has recorded and toured nationally since 1999, Bruce has played and recorded with legendary musicians and producers from around the world.

Michelle and Bruce are joined by a powerful group of stellar musicians who recreate the look and sound so closely that they are appreciated for their authenticity. The band proudly and loudly performs Fleetwood Mac's memorable music down to the last detail.

Bob Weitz as bassist John McVie is superb. Having enjoyed a lucrative career as a very successful musician, an Academy Award-winning sound engineer, an accomplished guitarist, a producer, and an all-around technical wiz kid - Bob enjoys entertaining the fans when he lays down the McVie bass lines with steady authority.

Carla Buffa performs the on-stage soulful persona of Christine McVie while also being an accomplished keyboardist and vocalist. Carla's background includes musical theater experience and she is Berklee trained as well as accepted into the Master of Music program at USC.

Richard Graham channels the incomparable percussionist, Mick Fleetwood. Richard has played with some of the best musicians across the country and his tribute performances capture the precise back-beat style that Mick fans can easily recognize.

Over the years, Mirage has performed in large venues, arenas, and music theaters to joyful audiences. They love what they do – showcasing their great live vocals and tight sets of all their favorite Fleetwood Mac songs. This band is wonderful for concert halls, casino events, huge outdoor festivals, private events, and night clubs.
